

Seminar Series 2015-2016

	Date	Speaker	Title of the seminar	Area of Expertise	Seminar	Course	Workshop
1	25-Sep-15	David S.K. Magnuson, Ph.D.	The Central Pattern Generator and Functional Recovery after a Spinal Cord Injury	Neurological Surgery	X		
2	17-Nov-15	Shilpa Buch, Ph.D.	NeuroAIDS: A Tango of HIV and the Host	Pharmacology	X		
3	30-Nov-15	Laura Cervi, Ph.D.	Immunomodulatory molecules from Fasciola hepatica: New candidates for vaccine development and inhibition of inflammatory	Clinical Biochemistry	X	X	
4	22-Jan-16	José R. Conejo, MD, Ph.D.	Dynamic Expression of the Genomic Organizer Satb1 Governs Dendritic Cell Differentiation and Function in Health and Cancer	Tumor Microenvironment and Metastasis Program	X		
5	4-Feb-16	Jeremy Boss, Ph.D.	Epigenetic Regulation of Immune Responses in Health and Disease	Microbiology & Immunology	X		
6	12-Feb-16	Charles Steenbergen, MD, Ph.D.	Mitochondrial microRNA and Oxidative Stress	Pathology	X		
7	1-Mar-16	Demetrio Sierra Mercado, Ph.D.	Ethical Issues in Research: Predatory Journals & Data Misrepresentation	Anatomy & Neurobiology	X		
8	8-Mar-16	Gerald R. Fink, Ph.D.	Understanding the Success of the Pathogen, Candida albicans, using CRISPR Technology	Biology	X		
9	18-Apr-16	Dianne Langford	Contributions of HIV and cocaine to retinoic acid signaling disruption in the CNS	Neuroscience and Neurobiology	X		
10	28-Apr-16	Marino De León, Ph.D.	Data Gathering and Reproducibility	Health Disparities & Molecular Medicine			X
11	28-Apr-16	Daisy De León, Ph.D.	Development of a Professional CV	Basic Sciences			X
12	28-Apr-16	Michael Leibowitz, Ph.D.	How to Write Your Teaching Statement	Medical Microbiology & Immunology			X

Advanced Topics in Pharmacogenomics 2016

	Date	Speaker	Title of the seminar	Area of Expertise	Seminar	Course	Workshop
1	4-Mar-16	Gualberto Ruaño, MD., Ph.D.	Building the Evidence for Personalized Medicine: Pharmacogenetic Trials and Clinical Outcomes	Personalized Health	X	X	
2	15-Apr-16	Howard L. McLeod, Pharm.D.	Precision Medicine 2016: Tie Breakers and Risk Avoidance	Personalized Health	X	X	
3	6-May-16	Jill Turner, Ph.D.	Neuregulin3-ErbB4 (HER4) Signaling: Possible Therapeutic Target for Treatment of Co-morbid Nicotine Dependence and Schizophrenia	Drug Discovery and Biomedical Sciences	X	X	
4	13-May-16	Adrian Llerena, MD., Ph.D.	Clinical Pharmacogenetics: Ethnicity, Regulation and Clinical Implementation	Clinical Research	X	X	
5	20-May-16	Scott Stuart, Ph.D., FACMG	Translational Pharmacogenomics: Discovery, Education and Implementation	Genetics and Genomic Sciences	X	X
